Notes and Information for Authors and Their Employers

IEEE POLICY

In connection with its publishing activities, it is the formal policy of the IEEE to own the copyrights to all copyrightable material in its technical publications and to the individual contributions contained therein, in order to protect the interests of the IEEE, its authors and their employers, and, at the same time, to facilitate the appropriate re-use of this material by others. The IEEE distributes its technical publications throughout the world and does so by various means such as hard copy, microfiche, microfilm, and electronic media. It also abstracts and may translate its publications, and articles contained therein, for inclusion in various compendiums and similar publications, etc. When an article is submitted to the IEEE for publication, the IEEE understands that its acceptance of the article implies that IEEE has the rights to do all of the things it normally does with such an article.

IEEE Policy 6.17—CLEARANCE OF PAPERS—applies to all material submitted to IEEE: “The IEEE must of necessity assume that material presented at its meetings or submitted to its publications is properly available for general dissemination to the audiences these activities are organized to serve. It is the responsibility of the authors, not the IEEE, to determine whether disclosure of their material requires the prior consent of other parties and, if so, to obtain it.”

Furthermore, if an author uses within his/her article previously published and/or copyrighted material, the IEEE must assume that permission has been obtained for such use and that any required credit lines, copyright notices, etc. are duly noted.

IEEE OBLIGATIONS

In exercising its rights under copyright, the IEEE will make all reasonable efforts to act in the interests of the authors and employers as well as in its own interest. In handling third party reprint/republication requests for an IEEE work, the IEEE requires that 1) the consent of the first-named author besought as a condition in granting republication (of a full paper) to others. 2) The consent of the employer be obtained as a condition in granting permission to others to re-use all or portions of a paper for promotion or marketing purposes.

AUTHOR/COMPANY RIGHTS

If you are employed and you prepared your paper as a part of your job, the rights to your paper rest initially with your employer. In that case, when you sign the copyright transfer form, we assume you are authorized to do so by your employer and that your employer has consented to all the terms and conditions of this form. If not, it should be signed by someone so authorized. (See also Policy 6.17 above.)

SPECIAL NOTE TO EMPLOYERS: Just as the IEEE requires a signed copyright transfer form (for copyrightable material) in order to do “business as usual,” it is the intent of the transfer portion of the form to return rights to the author and employer so that they, too, may do “business as usual.”

Please note that, although authors are permitted to reuse all or portions of their IEEE-copyrighted material in other works, this does not include granting third party requests for reprinting, republishing, or other types of re-use. All third party requests must be handled by the IEEE Copyrights Permissions Office.

Applicability

Travel grants are intended to provide partial reimbursement of travel costs for full-time students attending MILCOM 2001 and making technical presentations based on research conducted as part of graduate-level university degree program in engineering or science. Although the primary goal is to provide partial or full reimbursement of transportation costs, the MILCOM 2001 Conference Board does not wish to rule out the reimbursement of hotel, registration, or other expenses in certain instances.

Guidelines for MILCOM 2001 Graduate Student Travel Grants

The guidelines provide some degree of uniformity in the selection of MILCOM Student Travel Grant recipients from year to year. However, these are guidelines, not restrictions. The final authority in awarding travel grants lies with the Technical Program Chair.

Eligibility Guidelines

- Eligibility is limited to full-time university students who are enrolled in a graduate program and are making satisfactory progress toward a graduate-level engineering or science degree, as certified by the student's graduate thesis advisor.
- The student must be the author or a coauthor of a technical paper that has been accepted for presentation at MILCOM 2001. The paper must be based on the student's graduate research, as certified by the student's thesis advisor.
- The student must submit this completed application form, the copy of the camera-ready manuscript, and a copy of the appropriate MILCOM 2001 approval form indicating that the paper has been approved for release and publication in the *MILCOM 2001 Conference Proceedings*. The student's university affiliation must be displayed on the paper, and no company affiliations may be given.
- The student must be a member or student member of IEEE.

Grant Awards

All recipients of a Student Travel Grant will receive a Grant Award Letter from the Technical Program Chair specifying the amount of the award.

Grant Reimbursement

After the paper is presented, the student should contact the MILCOM 2001 Registration Supervisor to receive the grant award. The student must present a copy of the Grant Award Letter signed by the Technical Program Chair and a photo ID.
