- A \$50.00 processing charge will be applied to orders cancelled prior to installation.
- Final invoices or any applicable refunds will be processed approximately 4 weeks after the close of the show.

SERVICE OFFERING DESCRIPTIONS

Analog Service – Standard phone service which accommodates such applications as a single phone line, modem, and/or fax. If ordered WTCB will provide a phone with a single line.

Speakerphone – Multi-line phone set with conference call and speakerphone capabilities.

ISDN BRI – (Integrated Services Digital Network Basic Rate Interface) Provides two “B” and one “D” channel. Each of the two “B” channels can be used to carry a voice conversation or one high speed data or several data channels which are multiplexed into one 64 kbps high speed data line. The “D” channel of 16 kbps will carry control and signaling information to set up and break down the voice and data calls. The “D” channel can also carry data up to 9600 bits per second in addition to the control and signaling information.

LAN – 10base-T Local Area Network connection with direct internet access. PC or laptop must come equipped with the following: Network Interface Card with an RJ45 adapter, TCP/IP and a web browser.
