**Artwork**

Artwork will reproduce best if these guidelines are followed: Line selection should be simple (a number 1 line with a number 2 line used for emphasis). Shading should be kept to a minimum: Use only to show emphasis or flow. Text should be 11 pt. Times Roman, black. Do not use color or shadow text. Do not submit any hand drawn artwork or text. Good and poor art examples are shown below.

**Electronic Manuscript Format Guidelines**

**Acceptable Formats**

Papers are requested to be submitted electronically in Portable Document Format (PDF). PDF files are more likely to preserve your intended layout than other formats. You will need Adobe Acrobat, or comparable tool, to create PDF files. Be sure to embed all fonts, images, and figures. If using acrobat, select Print in the file menu. Select Acrobat Distiller from the drop-down menu. Under Properties, select Print from the drop-down menu and deselect "Do not send fonts to Distiller." This box must NOT be checked.

If you need assistance in creating your PDF file, send your document to the email address below, and MILCOM 2007 will convert it: [wams@spargointeractive.com](mailto:wams@spargointeractive.com). The subject line of your message must be 'MILCOM Papers'.

For further instructions on how to prepare your PDF to meet IEEE standards, please see <http://www.ieee.org/organizations/pubs/conf/standards> at the IEEE website under “IEEE Requirements for PDF Documents intended for IEEE Xplore.”

### **File Size Limits**

File size must not exceed 5 MB.

### **Including Graphics/Images**

The type of graphics you include will affect the quality and size of your paper on the electronic document disc. In general, graphics produced by most presentation and drawing packages (i.e., Microsoft Power Point) can be used without concern and are encouraged. The use of bitmap images, such as those produced when a photograph is scanned, require significant storage space and must be used with care. Increasing the size, resolution (dots per inch), or number of colors in an image will dramatically increase the size of the image.

### **IMPORTANT**

#### **Naming Convention**

Use your Abstract ID Paper Tracking Number followed by the appropriate file extension as your file name. For example, if your Paper Tracking Number is 134, file name will be 134.pdf.

#### **Upload Your File(s).**

Launch your Internet browser and go to the MILCOM 2007 website <http://www.milcom.org> Once there, click on the Technical Program menu link, and follow the instructions provided. Check that your e-mail address is correct on the MILCOM 2007 website, to ensure that you can be notified that your paper has been received.

If you have a technical problem uploading your file, contact: [wams@spargointeractive.com](mailto:wams@spargointeractive.com). The subject line of your message must be ‘MILCOM Papers’.
