

MILCOM:08

ASSURING MISSION SUCCESS

November 17–19 San Diego Convention Center

Steven Alejandro

Steven Alejandro

Chief, Lasercom Program Office

Space Vehicles Directorate, Air Force Research Laboratory

Steven Alejandro was recently the chief of the Lasercom Program office, Space Vehicles Directorate, Air Force Research Laboratory (AFRL), Kirtland Air Force Base, N.M. As chief, he led programs developing advanced space based laser and RF communication technology development to provide jam-proof high bandwidth communications to the warfighter.

In a previous role Alejandro was the technical director for lidar gas and solid state laser technology programs, developing sources for air and space based active sensors. He is also responsible for the creation of the Space Laser and Optics Technology Working Group, formed under the auspices of the Space Technology Alliance to address critical issues associated with space qualifying lasers and associated active optical systems.
