ASSURING MISSION SUCCESS

November 17–19 San Diego Convention Center

Joe Chapman

Joe Chapman

Defense Standardization Program
Department of Defense

Joe Chapman is a consultant currently serving the electronics industry and the U.S. Department of Defense (DoD). He has 42 years of experience having completed a 32-year career in the Semiconductor group of Texas Instruments prior to his consulting work.

Chapman is a past chairman of the Government Procurement Committee of the Semiconductor Industry Association and currently is an officer of the Electronic Components Certification Board (ECCB) in the U.S. and an officer of the International Electrotechnical Commission Quality Assessment System for Electronic Components with headquarters offices in Geneva, Switzerland.

Additionally he represents the U.S. DoD standardization program on the executive board of the Aerospace Vehicle Systems Institute (AVSI).

Chapman serves as the secretary treasurer of the ECCB and the treasurer of the International Electrotechnical Commission Quality Assessment System for electronic components. Additionally he represents the U.S. DoD standardization program on the executive board of the AVSI.

Chapman serves on the GEIA Avionics Process Management Committee and also on the Executive Board of the AVSI.
