ASSURING MISSION SUCCESS

November 17–19 San Diego Convention Center

## Dr. Kurt Fisko

### Dr. Kurt Fisko

Future SATCOM Chief Engineer of PMW 170

Navy Program Executive Office for Command, Control, Communications, Computers, and Intelligence (PEO C4I)

Dr. Kurt Fisko is the Future SATCOM Chief Engineer of PMW 170 in the Navy Program Executive Office for Command, Control, Communications, Computers, and Intelligence (PEO C4I). Following a 20-year Army career in Research, Development, and Acquisition, he held positions as vice president of a defense services firm and senior systems engineer at SAIC before joining the government in 2006.

Dr. Fisko started his Army career in the Army Space Program Office and the National Reconnaissance Office, serving as program manager for various programs, before being assigned as commander of the Army Science and Technology Center in Tokyo, Japan.

Dr. Fisko received his doctorate in aeronautical engineering from Stanford University. He is DAWIA Level III certified and is a recipient of the Bronze Star medal from action in Operation Desert Storm.
