

MILCOM:08

ASSURING MISSION SUCCESS

November 17–19 San Diego Convention Center

Richard Hinman

Richard Hinman

Senior Engineer, Information Directorate
Air Force Research Lab

Richard Hinman is a senior engineer in the Air Force Research Lab, Information Directorate. He previously worked on direct sequence spread spectrum, adaptive antenna arrays and fast frequency hopping synthesizer technologies for military communication. Hinman worked directly on both the SEEK TALK and SPEAKeasy software defined radio programs. He has supported the JTRS Technology Lab in the area of open source SCA core frameworks and waveform developments.

Hinman's most recent project activities include the Next Generation (XG) Communications program, Wireless Network after Next (WNaN) and RAPID Link Programs.

He received his bachelor's degree in electrical engineering from Clarkson University and master's degree in electrical engineering from Syracuse University.
