

Dr. Pravin Jain

Dr. Pravin Jain

Vice President and Chief Scientist
LinQuest Corporation

Dr. Pravin Jain is the vice president and chief scientist of LinQuest Corporation. Prior to joining LinQuest in September 2005, he completed more than 30 years with the Defense Information Systems Agency (DISA) where he held several senior level positions, retiring as the chief scientist of the GIG Enterprise Services Engineering Directorate.

Dr. Jain is internationally recognized expert with more than 40 years of professional experience in military satellite communications and space programs. He served as the DISA focal point in dealing with senior-level officials within the Department of Defense (DoD), intelligence agencies, defense industry, Congress, NATO and foreign governments on space issues. He directed and supervised DISA's Satellite Communication (SATCOM) architecture, planning, engineering and operational activities and managed an organization comprising more than 80 military and civilian personnel. Dr. Jain also directed DISA's Commercial SATCOM acquisition activities leading to DoD's largest small business contract (more than \$2 billion) for acquisition and lease of commercial SATCOM services and associated ground terminals.

In 2003, Dr. Jain received the Presidential Rank Award for exceptional long-term accomplishments and commitment to excellence in public service — awarded to less than 1 percent of the career members of the Senior Executive Services (SES). Jain is also a recipient of Secretary of Defense "Meritorious Civilian Service" award and twice DISA Director's "Exceptional Civilian Service Award."

Dr. Jain has a doctorate, master's and bachelor's degrees all in electrical engineering.
