ASSURING MISSION SUCCESS

November 17–19 San Diego Convention Center

## Thomas Kidd III

### Thomas Kidd III

Director of Strategic Spectrum Plans and Policy  
Department of the Navy

Tom Kidd is the Director of Strategic Spectrum Plans and Policy for the Department of the Navy and senior advisor to the Department of the Navy Chief Information Officer (DONCIO) on matters related to the Electromagnetic Spectrum. He entered the Air Force in 1978 at Ellsworth Air Force Base in South Dakota, and has worked exclusively in Communications Electronics since 1985. In 1991, Kidd graduated from the Interservice Radio Frequency Management School at Keesler AFB Mississippi. Before retiring from active duty in 1998 he served as Contingency/War Planner Radio Frequency Spectrum Manager for Headquarters 12th Air Force, Headquarters U.S. Air Forces Korea, and the Air Force Frequency Management Agency (AFFMA). Kidd briefly returned to AFFMA after retiring before moving to the Naval Electromagnetic Spectrum Center (NAVEMSCEN) in 1999 and then Naval Base Ventura County (NBVC) in 2001. In 2005 he returned to Washington D.C. to serve in the DONCIO. Kidd serves as the Department of the Navy (DON) Representative to the National Telecommunications and Information Administrations (NTIA) Interdepartment Radio Advisory Committee (IRAC); and DON member of the Department of Defense (DoD) Spectrum Management Review Group (SMRG). In 2007 Kidd was a United Nations Delegate to the International Telecommunications Union (ITU) World Radiocommunication Conference (WRC). He is a regular contributor to *Chips* magazine authoring or editing the recurring column "Can you hear me now?" which focuses on bring the complex and often esoteric issues of Electromagnetic Spectrum to the broader DON community.
