

Gerry Piosenka

Gerry Piosenka

Director, Mobile Satellite Communications
General Dynamics

Gerry Piosenka is director of the Mobile Satellite Communications business within General Dynamics C4 Systems' National Systems Division. Piosenka also is the General Dynamics program manager for the Mobile User Objective System (MUOS) Integrated Ground. In that capacity he is responsible for execution of the work subcontracted to General Dynamics for the MUOS Ground and User Entry Segments.

He joined the MUOS program at the completion of the concept exploration phase and contributed to the Component Advanced Development (CAD) proposal, CAD Phase and the Risk Reduction and Design Development proposal. Prior to that assignment, Piosenka headed various business units within General Dynamics and Motorola, including Iridium subscriber

products, fixed wireless products, and tactical radio products. Prior to his transition to management, he was a senior systems architect. He holds 14 patents.

Piosenka holds a bachelor's degree in electrical engineering from State University of New York at Buffalo and attended graduate schools there and at Purdue University.
